

CASE STUDY
DEPARTMENT FOR EDUCATION AND SKILLS

CLIENT PROFILE

Central Government Department responsible for education and work based learning.

PROJECT

APPLICATION DESIGN & DEVELOPMENT
MANAGED SUPPORT AND HOSTING
TRAINING AND PROJECT MANAGEMENT

The DfES required a Management Information System to evaluate their £25m Positive Activities for Young People Scheme (PAYP).

SOLUTION

In partnership with Public Sector Matters (PSM), a public sector management consultancy, Public Sector Systems (a division of MERISIS) delivered a multi-user and multi-authority browser-based solution that provides a highly adaptable and efficient method of data capture and reporting based on the tracking of activities involved within the PAYP scheme.

As well as software design and application development, Public Sector Systems have provided training in both the system and its application to PAYP personnel across all 9 government regions.

BENEFITS

- Can be used from any location.
- Can be easily integrated with other systems.
- Easy to use user authority administration.
- User friendly.
- 3rd party contractor management functionality.
